We want to become a more pro-active Association carrying out our Mission, "To Keep Labor Alive" at the National Labor College. We will be reaching out to you in our respective areas to think of ways to make our College flourish and grow. We intend to be active and answer any questions that may arise from new students as Mentors and Alum who might need our help.

We are a **NO** fee association, therefore, we are depending on you to either donate (<http://www.nlc.edu/alumniCommunity/GivingToNLC.html>) or have your Unions, Local's, or International's become more involved with our College, The College that Labor Built!

Any ideas for future fundraisers or reaching out to our brother's and sister's in each region would be greatly appreciated.

During these tough economic times our success depends on you to help with our fight. We want to be active in each region and will call on you on to help us achieve our goal of becoming a proactive Association. We need your suggestions and ideas.

Again, it's up to us to keep OUR COLLEGE, the College that Labor Built alive! We are happy to have you join the cause and reach out to the representative in your region with ideas or suggestions.

In Solidarity,

**The Executive Council
National Labor College Alumni Association**
