

Greetings from Student Government at the NLC,

On behalf of the class stewards, Chief Steward and Newsletter Editor I am pleased to welcome you to the National Labor College. As part of our tradition in the Labor Movement we have a long tradition of solidarity and representation that mirrors the unions that many of us come from. Our student government reflects that tradition.

As our College goes through the transition from a physical location to a more virtual one, the solidarity and community we create as students is part of the experience that we value most. Please get involved as a class steward; reach out with your ideas, our labor movement needs your energy and ideas.

If you have a question, suggestion or are facing a challenge, please know that your representatives are here as another resource – please reach out to us.

Sincerely in Solidarity,

Carrie Biggs-Adams
President
2012-2013
